EXPERIENCE

SOFTWARE ENGINEER | SEBPO

Jun 2022 - Present | Mohakhali DOHS, Dhaka

- Developing and maintaining Java, Groovy, & JavaScript web applications
- Maintaining & implementing features to a Java Enterprise application
- Utilizing the Spring Framework for building robust and scalable solutions
- Containerizing applications with Docker for easy deployment
- Collaborating in Agile environments and contributing to continuous improvement
- Effective communication and collaboration with team members and stakeholders

FRONT END DEVELOPER | BETTER HEALTH INITIATIVES

Oct 2021 – Mar 2022 | Remote

- Developed and launched websites for new companies, ensuring their successful online presence.
- Integrated REST APIs for data and functionality into web apps.
- Designed visually appealing and responsive front-end interfaces using HTML, CSS, Bootstrap, JavaScript, Angular, Scroll Reveal, GSAP, etc.
- Converted Figma & XD design into pixel-perfect HTML & ensuring accuracy
- Created user-friendly and mobile-responsive websites with cross-browser compatibility & enhancing the overall user experience.

PROJECTS

DATAWIZARD MADE UP NAME, NOT ALLOWED TO SHARE REAL ONE

Led to Upgrade in-house Enterprise framework from Java 8 to JDK 17 enhanced performance & modern compatibility. • Migrated core components to Spring 5 for better performance and compatibility. • Integrated Groovy for scripting and data extraction. • Managed client feature integration to enhance business value. • Resolved legacy code issues for stability. • Implemented Docker containerization for optimized deployment.

SEBPO MEDIA

Developed the front end of the sebpo.media website independently. • Utilized HTML, CSS, JavaScript, jQuery, and SwiperJS in the development process. • Integrated dynamic content from the PHP-based backend server. • Showcased the client's offerings effectively. • Ensured a seamless user experience with responsive design and Cross-Browser compatibility.
